## Stations of the Resurrection

Paintings and Commentary by A.Vonn Hartung

When Jesus was resurrected, becoming for us The Christ, in that moment the world was changed forever!

Earth burst into blossom; She glowed with light in the deep dark night of time. Everything, all Creation was illuminated with Divine significance, light, hope. As such I painted these Stations of the Resurrection. The intense color is meant to bring this miraculous change into our consciousness. The figures show emotion in their gestures and exaggerated movements. This is to show that reality was turned on its head. Something so unbelievable had occurred that it changed consciousness forever! The world became full of hope, full of light and meaning, because the darkness of death had lost its power, its grip on humanity.

Hallelujah! HE IS RISEN!

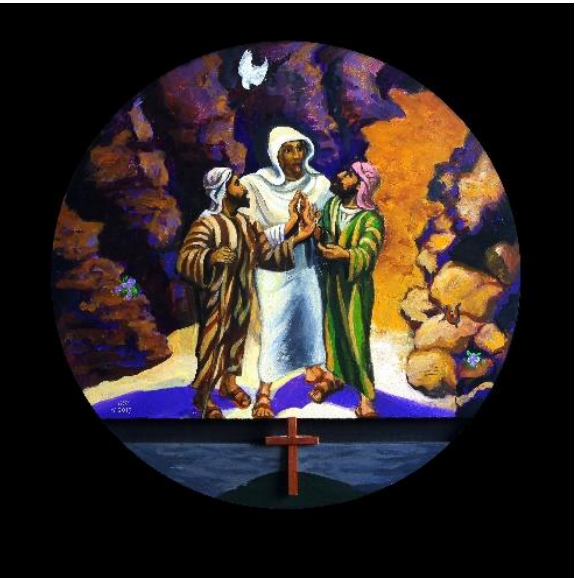

1. He has been raised! (Mt 28)

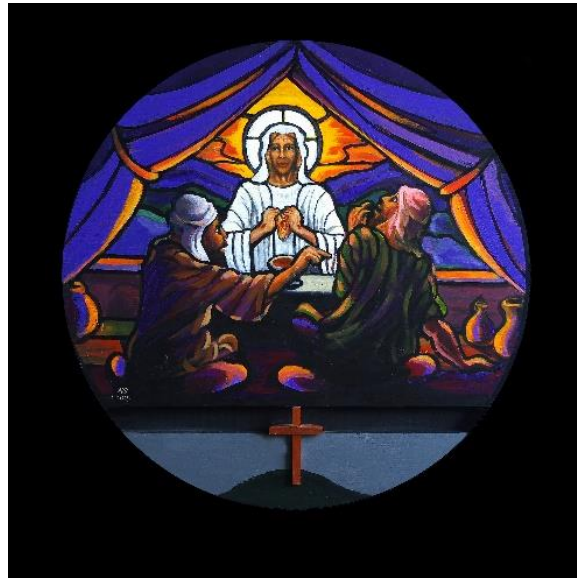

2. He saw and believed (Jn 20)

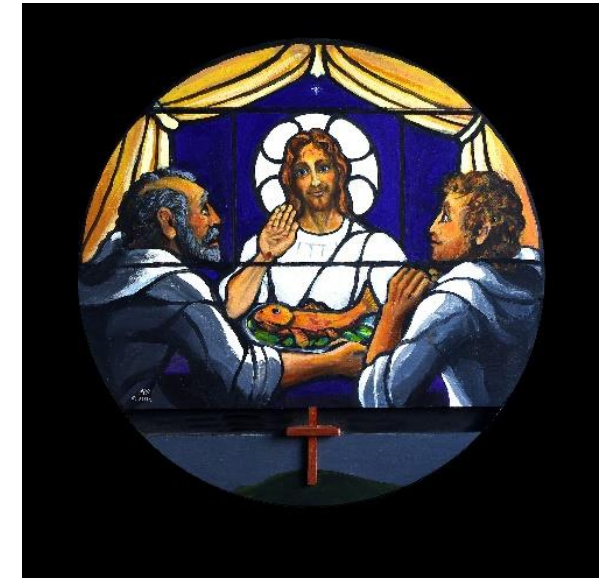

3. Go tell my brothers (Jn 20)

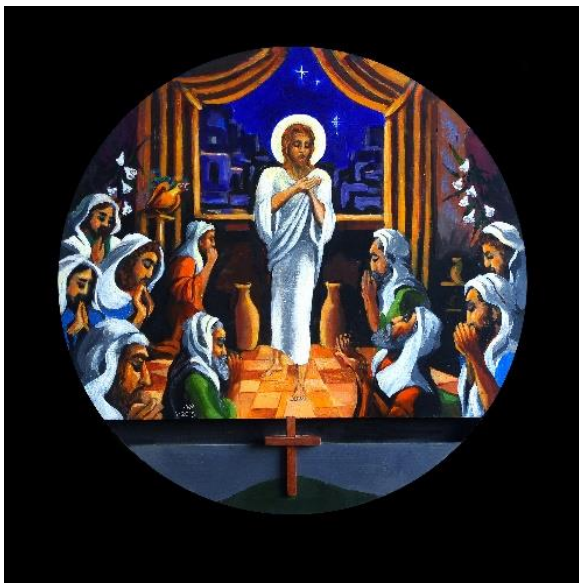

4. They did not recognize Him (Lk 24)

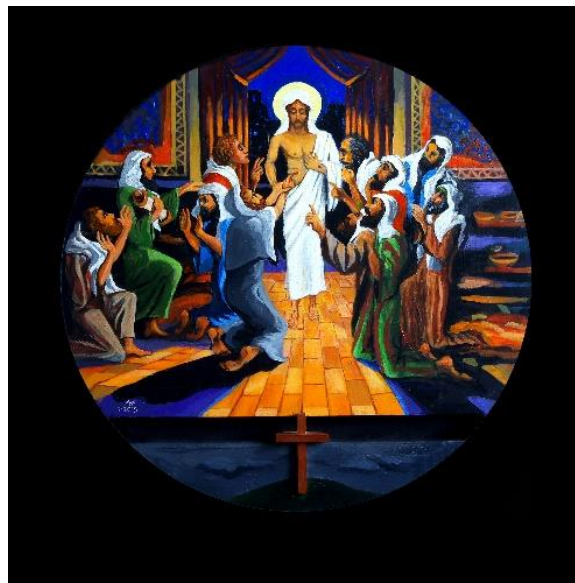

5. Then their eyes were opened (Lk 23)

6. Do you have anything to eat? (Lk 24)

7. Receive the Holy Spirit (Jn 20)

8. My Lord and my God! (Jn 20)

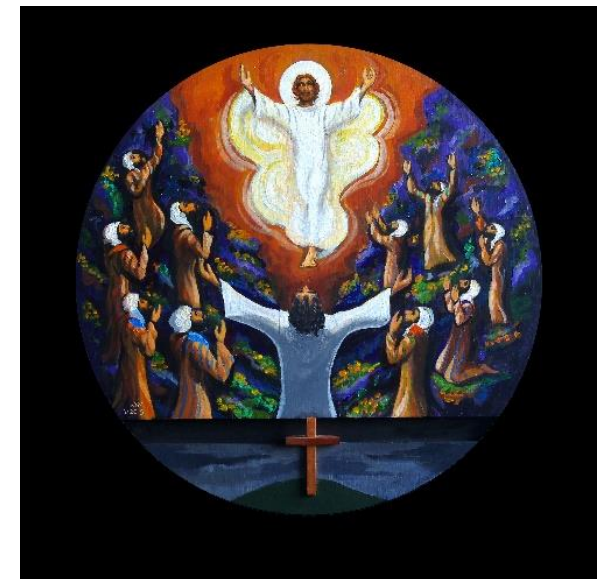

9. It is the Lord! (Jn 21)

10. Peter, do you love me? (Jn 21)

11. Go then to all Peoples (Mt 28)

12. He is taken up (Mk 16)

13. The Vigil (Acts 1)

14. Pentecost (Acts 2)

The miracle of the Resurrection of our Lord and Savior Christ Jesus is the hope so desperately needed in our world today! To realize this Hope we need the FULL story of Salvation, which is incomplete without a deep understanding of the revealed truth of the Resurrection. My prayer is that we might see for ourselves, this miracle of miracles expressed through Sacred Art in the Church.
